**Read the changes proposed by FINS at the link below,  
then come to these meetings and speak out.**

For further information about the proposal and how to comment go to:

**<https://parkplanning.nps.gov/projectHome.cfm?projectId=97189>**

### ***Tell the Seashore:***

- We do not want caps on driving permits removed.
- FINS must continue to oversee and enforce driving regulations.
- The year-rounders and essential services who sustain our island must be supported.
- FINS should partner with the communities to draft new driving regulations.

FINS must understand that their preliminary proposals don't work for Fire Islanders. There are better ways to update our driving regulations to meet today's needs. We are eager and willing to help FINS develop them.

***These meetings may be your best chance to hear and be heard!***
