Full Environmental Assessment Form Part 1 - Project and Setting

Instructions for Completing Part 1

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either "Yes" or "No". If the answer to the initial question is "Yes", complete the sub-questions that follow. If the answer to the initial question is "No", proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the project sponsor to verify that the information contained in Part 1 is accurate and complete.

A. Project and Sponsor Information.

B. Government Approvals

B. Government Approvals Funding, or Sponsorship. ("Funding" includes grants, loans, tax relief, and any other forms of financial assistance.)				
Government E	ntity	If Yes: Identify Agency and Approval(s) Required	Application Date (Actual or projected)	
a. City Council, Town Board or Village Board of Truste		Village Board	Pending	
b. City, Town or Village Planning Board or Commi	□Yes□No ission			
c. City Council, Town or Village Zoning Board of A	□Yes□No Appeals			
d. Other local agencies	□Yes□No			
e. County agencies	∠ Yes No	Suffolk County Department of Health	Pending	
f. Regional agencies	□Yes□No			
g. State agencies	✓Yes□No	NYS EFC, NYS DEC, NYS DOS	Pending	
h. Federal agencies	∠ Yes N o	USACE	Pending	
i. Coastal Resources.i. Is the project site within If Yes,	n a Coastal Area, c	or the waterfront area of a Designated Inland W	aterway?	∠ Yes □No
 ii. Is the project site located in a community with an approved Local Waterfront Revitalization Program? iii. Is the project site within a Coastal Erosion Hazard Area? ✓ Yes□No 				
C. Planning and Zoning				
C.1. Planning and zoning actions.				
Will administrative or legislative adoption, or amendment of a plan, local law, ordinance, rule or regulation be the only approval(s) which must be granted to enable the proposed action to proceed? ■ If Yes, complete sections C, F and G. ■ If No, proceed to question C.2 and complete all remaining sections and questions in Part 1				
C.2. Adopted land use plans.				
a. Do any municipally- adopt where the proposed action	ed (city, town, vil would be located?	lage or county) comprehensive land use plan(s) include the site	□Yes Z No
If Yes, does the comprehensive plan include specific recommendations for the site where the proposed action would be located?				
b. Is the site of the proposed action within any local or regional special planning district (for example: Greenway Brownfield Opportunity Area (BOA); designated State or Federal heritage area; watershed management plan; or other?) If Yes, identify the plan(s):				
Federal Recreation Land: Fire Island National Seashore				
c. Is the proposed action located wholly or partially within an area listed in an adopted municipal open space plan, or an adopted municipal farmland protection plan? If Yes, identify the plan(s): □Yes ☑No				∐Yes . ∕∕No

C.3. Zoning	
a. Is the site of the proposed action located in a municipality with an adopted zoning law or ordinance. If Yes, what is the zoning classification(s) including any applicable overlay district? Residential and Commercial	☑ Yes□No
b. Is the use permitted or allowed by a special or conditional use permit?	□Yes☑No
c. Is a zoning change requested as part of the proposed action?	Yes Z No
If Yes, i. What is the proposed new zoning for the site?	L Yes Z INO
C.4. Existing community services.	
a. In what school district is the project site located? Fire Island School District	
b. What police or other public protection forces serve the project site? Ocean Beach Police Department	
c. Which fire protection and emergency medical services serve the project site? Ocean Beach Fire Department and Emergency Medical Services	
d. What parks serve the project site? Fire Island	,
D. Project Details	
D.1. Proposed and Potential Development	
 a. What is the general nature of the proposed action (e.g., residential, industrial, commercial, recreational; if mixed components)? Utility - sewer system upgrade 	l, include all
b. a. Total acreage of the site of the proposed action? 65 acres	
b. Total acreage to be physically disturbed? c. Total acreage (project site and any contiguous properties) owned	
or controlled by the applicant or project sponsor? 2.8 acres	
c. Is the proposed action an expansion of an existing project or use? i. If Yes, what is the approximate percentage of the proposed expansion and identify the units (e.g., acres, miles square feet)? % Units:	√□ Yes☑ No , housing units,
d. Is the proposed action a subdivision, or does it include a subdivision?	□Yes ☑ No
If Yes, i. Purpose or type of subdivision? (e.g., residential, industrial, commercial; if mixed, specify types)	
ii. Is a cluster/conservation layout proposed? iii. Number of lots proposed?	□Yes □No
iv. Minimum and maximum proposed lot sizes? Minimum Maximum	
e. Will proposed action be constructed in multiple phases? i. If No, anticipated period of construction: months	✓ Yes□No
ii. If Yes:	
• Total number of phases anticipated2	
 Anticipated commencement date of phase 1 (including demolition) Anticipated completion date of final phase O9 month 17 year month 19 year 	
 Generally describe connections or relationships among phases, including any contingencies where progre 	ess of one phase may
determine timing or duration of future phases: Phase Lincludes the installation of a stormwater collection Village. The system must be functioning prior to beginning demolition for Phase 2.	system for the

3					
D.2. Project Op	erations				
a. Does the propo	sed action include a	any excavation, mi	ning, or dredging, d	uring construction, operations, or both?	☐Yes ☑ No
		ition, grading or in	stallation of utilities	or foundations where all excavated	
materials will r	emain onsite)				
If Yes:	C.1	1 1 . 0			
i. What is the pu	rpose of the excava	ition or dredging?		o be removed from the site?	
ii. How much ma	terial (including roo	ck, earth, sediment	s, etc.) is proposed t	o be removed from the site?	
• Volume	(specify tons or cul	oic yards):			
Over what duration of time?					
iii. Describe nature and characteristics of materials to be excavated or dredged, and plans to use, manage or dispose of them.					
iv Will there he	onsite dewatering	or processing of or	coveted meterials?		□Vag□Na
If yes, descri		or processing or ex	cavated materials?		∐Yes∐No
II yes, desell					
What is the to	tal area to be duede	ad or avasystada			
	tal area to be dredg		timo?	acres	
	aximum area to be			acres	
			or areaging?	feet	
	vation require blast				□Yes □No
ix. Summarize sit	e reclamation goals	and plan:			
-					
4 *** 4					
				crease in size of, or encroachment	✓ Yes No
	ng wetland, waterb	ody, shoreline, bea	ch or adjacent area?	•	
If Yes:			00 . 1 /		
i. Identity the w	etland or waterbod	y which would be	attected (by name, v	water index number, wetland map numb	er or geographic
description):	Great South Bay, I	Middle (1701-0040), Water Index Numb	per (MW7.3) AO GSB (portion 2)	

ii. Describe how the proposed action would affect that waterbody or wetland, e.g. excavation, fill, placement of st alteration of channels, banks and shorelines. Indicate extent of activities, alterations and additions in square feet This project will involve installation of an outfall to the Great South Bay. 80 square feet will be needed to install the	or acres:
iii. Will proposed action cause or result in disturbance to bottom sediments? If Yes, describe: Only in the direct area where the outfall is to be placed.	✓ Yes No
 iv. Will proposed action cause or result in the destruction or removal of aquatic vegetation? If Yes: acres of aquatic vegetation proposed to be removed: 	☐ Yes No
 expected acreage of aquatic vegetation remaining after project completion: purpose of proposed removal (e.g. beach clearing, invasive species control, boat access): 	
proposed method of plant removal:	
• if chemical/herbicide treatment will be used, specify product(s): v. Describe any proposed reclamation/mitigation following disturbance:	
v. Describe any proposed reciamation initigation following disturbance.	
c. Will the proposed action use, or create a new demand for water? If Yes:	☐Yes Z No
i. Total anticipated water usage/demand per day: gallons/day	
ii. Will the proposed action obtain water from an existing public water supply?	□Yes □No
If Yes:	
 Name of district or service area: Does the existing public water supply have capacity to serve the proposal? 	☐ Yes ☐ No
 Is the project site in the existing district? 	☐ Yes ☐ No
 Is expansion of the district needed? 	☐ Yes☐ No
 Do existing lines serve the project site? 	☐ Yes☐ No
iii. Will line extension within an existing district be necessary to supply the project? If Yes:	□Yes □No
Describe extensions or capacity expansions proposed to serve this project:	
Source(s) of supply for the district:	
iv. Is a new water supply district or service area proposed to be formed to serve the project site? If, Yes:	☐ Yes☐No
Applicant/sponsor for new district:	
Date application submitted or anticipated:	
Proposed source(s) of supply for new district:	
v. If a public water supply will not be used, describe plans to provide water supply for the project:	
vi. If water supply will be from wells (public or private), maximum pumping capacity: gallons/minute.	
d. Will the proposed action generate liquid wastes? If Yes:	☐ Yes Z No
 i. Total anticipated liquid waste generation per day: gallons/day ii. Nature of liquid wastes to be generated (e.g., sanitary wastewater, industrial; if combination, describe all compapproximate volumes or proportions of each): 	onents and
iii. Will the proposed action use any existing public wastewater treatment facilities? If Yes:	□Yes □No
Name of wastewater treatment plant to be used:	
 Name of district: Does the existing wastewater treatment plant have capacity to serve the project? 	☐Yes ☐No
• Is the project site in the existing district?	☐Yes ☐No
Is expansion of the district needed?	□Yes□No

Do existing sewer lines serve the project site?	□Yes□No		
• Will line extension within an existing district be necessary to serve the project?	□Yes□No		
If Yes:			
Describe extensions or capacity expansions proposed to serve this project:			
iv. Will a new wastewater (sewage) treatment district be formed to serve the project site?			
If Yes:	□Yes□No		
Applicant/sponsor for new district:			
Date application submitted or anticipated:			
What is the receiving water for the wastewater discharge?			
v. If public facilities will not be used, describe plans to provide wastewater treatment for the project, including spec	ifying proposed		
receiving water (name and classification if surface discharge, or describe subsurface disposal plans):			
vi. Describe any plans or designs to capture, recycle or reuse liquid waste:			
vi. Describe any plans of designs to capture, recycle of reuse riquid waste.			
Will de the transfer of the tr			
e. Will the proposed action disturb more than one acre and create stormwater runoff, either from new point	Z Yes □ No		
sources (i.e. ditches, pipes, swales, curbs, gutters or other concentrated flows of stormwater) or non-point source (i.e. sheet flow) during construction or post construction?			
If Yes:			
i. How much impervious surface will the project create in relation to total size of project parcel?			
Square feet or acres (impervious surface) Square feet or acres (parcel size)			
ii. Describe types of new point sources. A new stormwater collection system including an outfall will be installed.			
iii. Where will the stormwater runoff be directed (i.e. on-site stormwater management facility/structures, adjacent properties,			
groundwater, on-site surface water or off-site surface waters)?	roperties,		
Stormwater runoff will be directed to an outfall discharging into the Great South Bay.			
If to surface waters, identify receiving water bodies or wetlands: Great South Bay			
			
Will stormwater runoff flow to adjacent properties?	☐ Yes ✓ No		
iv. Does proposed plan minimize impervious surfaces, use pervious materials or collect and re-use stormwater?	Yes No		
f. Does the proposed action include, or will it use on-site, one or more sources of air emissions, including fuel	□Yes ✓ No		
combustion, waste incineration, or other processes or operations?	1032110		
If Yes, identify:			
i. Mobile sources during project operations (e.g., heavy equipment, fleet or delivery vehicles)			
ii. Stationary sources during construction (e.g., power generation, structural heating, batch plant, crushers)			
iii. Stationary sources during operations (e.g., process emissions, large boilers, electric generation)			
www. State of the			
g. Will any air emission sources named in D.2.f (above), require a NY State Air Registration, Air Facility Permit,	☐Yes ☑No		
or Federal Clean Air Act Title IV or Title V Permit?			
If Yes:			
i. Is the project site located in an Air quality non-attainment area? (Area routinely or periodically fails to meet	□Yes□No		
ambient air quality standards for all or some parts of the year)			
ii. In addition to emissions as calculated in the application, the project will generate:			
Tons/year (short tons) of Carbon Dioxide (CO ₂)			
•Tons/year (short tons) of Nitrous Oxide (N2O)			
Tons/year (short tons) of Perfluorocarbons (PFCs)			
Tons/year (short tons) of Sulfur Hexafluoride (SF ₆) Tons/year (short tons) of Carbon Dioxide equivalent of Hydroflourocarbons (HFCs)			
Tons/year (short tons) of Hazardous Air Pollutants (HAPs)			

h. Will the proposed action generate or emit methane (includent landfills, composting facilities)?	uding, but not limited to, sewage treatment plants,	∐Yes Z No
If Yes:		
i. Estimate methane generation in tons/year (metric):		
ii. Describe any methane capture, control or elimination m	easures included in project design (e.g., combustion to g	enerate heat or
electricity, flaring):		
i. Will the proposed action result in the release of air pollut	ants from onen-air operations or processes, such as	☐Yes 7 No
quarry or landfill operations?	and from open an operations of processes, such as	10301110
If Yes: Describe operations and nature of emissions (e.g., d	liesel exhaust rock particulates/dust)	
1 Too. Describe operations and nature of emissions (c.g., o	moser exhaust, rock particulates/dust/.	
9		
j. Will the proposed action result in a substantial increase in	n traffic above present levels or generate substantial	☐Yes ✓ No
new demand for transportation facilities or services?		
If Yes:		
i. When is the peak traffic expected (Check all that apply	r): Morning Evening Weekend	
Dondomly between bears of		
ii. For commercial activities only projected number of se	emi-trailer truck trips/day	
ii. For commercial activities only, projected number of seiii. Parking spaces: Existing	Proposed Net increase/decrease	
iv. Does the proposed action include any shared use parking	ng?	☐Yes ☐ No
v. If the proposed action includes any modification of exi		access describe.
7. If the proposed detail includes any modification of ext	isting roads, creation of new roads of change in existing	access, describe.
vi. Are public/private transportation service(s) or facilities	available within ½ mile of the proposed site?	☐Yes ☐ No
vii Will the proposed action include access to public transp		□Yes□No
or other alternative fueled vehicles?	portunion of accommodations for the or hijoria, excesse	
viii. Will the proposed action include plans for pedestrian of	or bicycle accommodations for connections to existing	□Yes□No
pedestrian or bicycle routes?	or order addominations for compensions to existing	
parameter of orejoin fourtee.		
k. Will the proposed action (for commercial or industrial pr	rojects only) generate new or additional demand	■Yes No
for energy?		
If Yes:		
i. Estimate annual electricity demand during operation of	the proposed action: 0.5 kW-hr/day per GPU and 9 kW-hr/day for storm	water pump station pumps.
ii. Anticipated sources/suppliers of electricity for the proje	ect (e.g., on-site combustion, on-site renewable, via grid/	local utility, or
other):		• .
Grid/local utility.		
iii. Will the proposed action require a new, or an upgrade to	o, an existing substation?	Yes No
		-
1. Hours of operation. Answer all items which apply.		
i. During Construction:	ii. During Operations:	
Monday - Friday:8am-5pm	Monday - Friday: Utility - operates	24/7
Saturday: N/A	Saturday: Utility - operates	
Holidays: N/A	Holidays: Utility - operates	<u> </u>

 m. Will the proposed action produce noise that will exceed existing ambient noise levels during construction, operation, or both? If yes: i. Provide details including sources, time of day and duration: Project requires excavating a trench for the new sewer line and installation of an outfall. Noise will be generated machinery used to complete project. Noise will be temporary, short-term and intermittent during excavation. 	☑Yes ☐No
ii. Will proposed action remove existing natural barriers that could act as a noise barrier or screen? Describe:	□ Yes ☑ No
n Will the proposed action have outdoor lighting? If yes: i. Describe source(s), location(s), height of fixture(s), direction/aim, and proximity to nearest occupied structures:	☐ Yes ☑ No
ii. Will proposed action remove existing natural barriers that could act as a light barrier or screen? Describe:	□Yes□No
Does the proposed action have the potential to produce odors for more than one hour per day? If Yes, describe possible sources, potential frequency and duration of odor emissions, and proximity to nearest occupied structures:	☐ Yes ☑ No
p. Will the proposed action include any bulk storage of petroleum (combined capacity of over 1,100 gallons) or chemical products 185 gallons in above ground storage or any amount in underground storage? If Yes: i. Product(s) to be stored ii. Volume(s) per unit time (e.g., month, year) iii. Generally describe proposed storage facilities:	☐ Yes ☑ No
 q. Will the proposed action (commercial, industrial and recreational projects only) use pesticides (i.e., herbicides, insecticides) during construction or operation? If Yes: i. Describe proposed treatment(s): 	☐ Yes ☑ No
 ii. Will the proposed action use Integrated Pest Management Practices? r. Will the proposed action (commercial or industrial projects only) involve or require the management or disposal of solid waste (excluding hazardous materials)? If Yes: i. Describe any solid waste(s) to be generated during construction or operation of the facility: Construction:	
Operation:	
 iii. Proposed disposal methods/facilities for solid waste generated on-site: Construction: 	· · · · · · · · · · · · · · · · · · ·
• Operation:	2

	oes the proposed action include construction or modi-	fication of a solid waste ma	anagement facility?	Yes No
If Yes:				
i. Type of management or handling of waste proposed for the site (e.g., recycling or transfer station, composting, landfill, or				
ii	other disposal activities):			
11.	• Tons/month, if transfer or other non-c	combustion/thermal treatme	ent or

	Describe:			

c. Is the project site presently used by members of the community for public recreation? i. If Yes: explain:	☐ Yes ✓ No
 d. Are there any facilities serving children, the elderly, people with disabilities (e.g., schools, hospitals, licensed day care centers, or group homes) within 1500 feet of the project site? If Yes, i. Identify Facilities: Woodhull School 	☑Yes□No
	()
e. Does the project site contain an existing dam? If Yes: i. Dimensions of the dam and impoundment: Dam height: Dam length: Surface area: Volume impounded: ii. Dam's existing hazard classification: iii. Provide date and summarize results of last inspection:	☐ Yes No
-	
f. Has the project site ever been used as a municipal, commercial or industrial solid waste management facility, or does the project site adjoin property which is now, or was at one time, used as a solid waste management facility if Yes:	☐Yes☑No ity?
i. Has the facility been formally closed?	□Yes□ No
If yes, cite sources/documentation:	
ii. Describe the location of the project site relative to the boundaries of the solid waste management facility:	
iii. Describe any development constraints due to the prior solid waste activities:	
m. Describe any development constraints due to the prior solid waste activities.	-
 g. Have hazardous wastes been generated, treated and/or disposed of at the site, or does the project site adjoin property which is now or was at one time used to commercially treat, store and/or dispose of hazardous waste? If Yes: i. Describe waste(s) handled and waste management activities, including approximate time when activities occurred. 	☐Yes ✓ No
i. Describe waste(s) handled and waste management activities, including approximate time when activities occurre	ou.
X 	-
 h. Potential contamination history. Has there been a reported spill at the proposed project site, or have any remedial actions been conducted at or adjacent to the proposed site? If Yes: 	✓ Yes No
i. Is any portion of the site listed on the NYSDEC Spills Incidents database or Environmental Site Remediation database? Check all that apply:	✓ Yes No
✓ Yes – Spills Incidents database Provide DEC ID number(s): Please see below par	t iv.
Yes – Environmental Site Remediation database Provide DEC ID number(s):	
Neither database	
_	
ii. If site has been subject of RCRA corrective activities, describe control measures:	
iii. Is the project within 2000 feet of any site in the NYSDEC Environmental Site Remediation database? If yes, provide DEC ID number(s):	☐ Yes No
iv. If yes to (i), (ii) or (iii) above, describe current status of site(s):	
0810837; closed 4-15-09, 0225277; closed 10-15-02, 1104267; closed 2-13-12, 0700693; closed 10-5-11, 0411 10-15-10, 1407474; closed 10-19-14, 0910040; closed 2-5-10, 9108478; 11-12-1991, 1212651; closed 11-26-1;

1. Is the project site located over, or immediately adjo	ining, a primary, principal or sole source	aquifer?
If Yes:	5, F	
i. Name of aquifer: Sole Source Aquifer Names: N	assau-Suffolk SSA	

m. Identify the predominant wildlife species that occupy or use the project site: Typical coastal suburban wildlife	
n. Does the project site contain a designated significant natural community? If Yes: i. Describe the habitat/community (composition, function, and basis for designation): Maritime Beach	☑ Yes □No
 iii. Source(s) of description or evaluation: iii. Extent of community/habitat: • Currently: • Following completion of project as proposed: • Gain or loss (indicate + or -): o. Does project site contain any species of plant or animal that is listed by the federal government or NYS as endangered or threatened, or does it contain any areas identified as habitat for an endangered or threatened species. Project site within buffer area of piping plover. 	√ Yes No
 p. Does the project site contain any species of plant or animal that is listed by NYS as rare, or as a species of special concern? Rambur's Forktail- damselfly - rare animal, NYS Protected Status = not listed 	☑ Yes□No
q. Is the project site or adjoining area currently used for hunting, trapping, fishing or shell fishing? If yes, give a brief description of how the proposed action may affect that use:	□Yes ☑ No
E.3. Designated Public Resources On or Near Project Site	
a. Is the project site, or any portion of it, located in a designated agricultural district certified pursuant to Agriculture and Markets Law, Article 25-AA, Section 303 and 304? If Yes, provide county plus district name/number:	☐Yes Z No
 b. Are agricultural lands consisting of highly productive soils present? i. If Yes: acreage(s) on project site? ii. Source(s) of soil rating(s): 	□Yes Z No
c. Does the project site contain all or part of, or is it substantially contiguous to, a registered National Natural Landmark? If Yes: i. Nature of the natural landmark:	□Yes ☑No
d. Is the project site located in or does it adjoin a state listed Critical Environmental Area? If Yes: i. CEA name: ii. Basis for designation: iii. Designating agency and date:	

e. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on, or has been nominated by the NYS Board of Historic Preservation for inclusion on, the State or National Register of Historic Places? If Yes:	Yes No
i. Nature of historic/archaeological resource: Archaeological Site Historic Building or District ii. Name:	
iii. Brief description of attributes on which listing is based:	
f. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?	□Yes ☑No
g. Have additional archaeological or historic site(s) or resources been identified on the project site? If Yes: i. Describe possible resource(s): ii. Basis for identification:	□Yes ☑ No
11. Dasis for identification:	
h. Is the project site within fives miles of any officially designated and publicly accessible federal, state, or local scenic or aesthetic resource? If Yes:	Z Yes □No
i. Identify resource: Fire Island National Seashore	
 Nature of, or basis for, designation (e.g., established highway overlook, state or local park, state historic trail or etc.): U.S. National Park Serivce 	scenic byway,
iii. Distance between project and resource: 0.0 miles.	
 i. Is the project site located within a designated river corridor under the Wild, Scenic and Recreational Rivers Program 6 NYCRR 666? If Yes: 	☐ Yes ☑ No
i. Identify the name of the river and its designation:	
ii. Is the activity consistent with development restrictions contained in 6NYCRR Part 666?	□Yes □No
F. Additional Information Attach any additional information which may be needed to clarify your project. If you have identified any adverse impacts which could be associated with your proposal, please describe those in measures which you propose to avoid or minimize them.	npacts plus any
G. Verification I certify that the information provided is true to the best of my knowledge. Applicant/Sponsor Name Steven Brautigam Date 1/28/2 (Signature Mr. Bruthyan Title Village Clerk/Treasurer	

Full Environmental Assessment Form Part 2 - Identification of Potential Project Impacts

	Agency Use Only [If applicable]
Project:	
Date:	

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

The second of the second secon	r the project.		
1. Impact on Land			
Proposed action may involve construction on, or physical alteration of,	∐NO		YES
the land surface of the proposed site. (See Part 1. D.1)			
If "Yes", answer questions a - j. If "No", move on to Section 2.			
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may involve construction on land where depth to water table is less than 3 feet.	E2d		
b. The proposed action may involve construction on slopes of 15% or greater.	E2f	Ø	
c. The proposed action may involve construction on land where bedrock is exposed, or generally within 5 feet of existing ground surface.	E2a		
d. The proposed action may involve the excavation and removal of more than 1,000 tons of natural material.	D2a		
e. The proposed action may involve construction that continues for more than one year or in multiple phases.	D1e		
f. The proposed action may result in increased erosion, whether from physical disturbance or vegetation removal (including from treatment by herbicides).	D2e, D2q	Ø	
g. The proposed action is, or may be, located within a Coastal Erosion hazard area.	B1i	Ø	
h. Other impacts:			

2. Impact on Geological Features			
The proposed action may result in the modification or destruction of, or inhibit access to, any unique or unusual land forms on the site (e.g., cliffs, dunes, minerals, fossils, caves). (See Part 1. E.2.g)	it NO	<u> </u>	YES
If "Yes", answer questions a - c. If "No", move on to Section 3.	Dilinid	NY I	3.6 1 4
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Identify the specific land form(s) attached:	E2g		0
b. The proposed action may affect or is adjacent to a geological feature listed as a registered National Natural Landmark. Specific feature:	E3c		0
c. Other impacts:		П	
	·		
3. Impacts on Surface Water The proposed action may affect one or more wetlands or other surface water bodies (e.g., streams, rivers, ponds or lakes). (See Part 1. D.2, E.2.h) If "Yes", answer questions a - l. If "No", move on to Section 4.	□nc		YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may create a new water body.	D2b, D1h	2	
b. The proposed action may result in an increase or decrease of over 10% or more than a 10 acre increase or decrease in the surface area of any body of water.	D2b	Ø	
c. The proposed action may involve dredging more than 100 cubic yards of material from a wetland or water body.	D2a	Ø	
d. The proposed action may involve construction within or adjoining a freshwater or tidal wetland, or in the bed or banks of any other water body.	E2h		Ø
e. The proposed action may create turbidity in a waterbody, either from upland erosion, runoff or by disturbing bottom sediments.	D2a, D2h	Ø	
f. The proposed action may include construction of one or more intake(s) for withdrawal of water from surface water.	D2c	Ø	
g. The proposed action may include construction of one or more outfall(s) for discharge of wastewater to surface water(s).	D2d		
h. The proposed action may cause soil erosion, or otherwise create a source of stormwater discharge that may lead to siltation or other degradation of receiving water bodies.	D2e	Ø	
 i. The proposed action may affect the water quality of any water bodies within or downstream of the site of the proposed action. 	E2h	Ø	
j. The proposed action may involve the application of pesticides or herbicides in or around any water body.	D2q, E2h	Ø	
k. The proposed action may require the construction of new, or expansion of existing, wastewater treatment facilities.	D1a, D2d	Ø	

l. Other impacts:			
4. Impact on groundwater The proposed action may result in new or additional use of ground water, or may have the potential to introduce contaminants to ground water or an aquife (See Part 1. D.2.a, D.2.c, D.2.d, D.2.p, D.2.q, D.2.t) If "Yes", answer questions a - h. If "No", move on to Section 5.	₽NO er.		YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may require new water supply wells, or create additional demand on supplies from existing water supply wells.	D2c	0	0
b. Water supply demand from the proposed action may exceed safe and sustainable withdrawal capacity rate of the local supply or aquifer. Cite Source:	D2c	0	П
c. The proposed action may allow or result in residential uses in areas without water and sewer services.	D1a, D2c	п	
d. The proposed action may include or require wastewater discharged to groundwater.	D2d, E2l		0
e. The proposed action may result in the construction of water supply wells in locations where groundwater is, or is suspected to be, contaminated.	D2c, E1f, E1g, E1h		
f. The proposed action may require the bulk storage of petroleum or chemical products over ground water or an aquifer.	D2p, E2l	0	О
g. The proposed action may involve the commercial application of pesticides within 100 feet of potable drinking water or irrigation sources.	E2h, D2q, E2l, D2c		П
h. Other impacts:		0	
5. Impact on Flooding The proposed action may result in development on lands subject to flooding. (See Part 1. E.2) If "Yes", answer questions a - g. If "No", move on to Section 6.	□NO		YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in development in a designated floodway.	E2i		
b. The proposed action may result in development within a 100 year floodplain.	E2j	Ø	
c. The proposed action may result in development within a 500 year floodplain.	E2k	Ø	
d. The proposed action may result in, or require, modification of existing drainage patterns.	D2b, D2e	Ø	
e. The proposed action may change flood water flows that contribute to flooding.	D2b, E2i, E2j, E2k	Ø	
f. If there is a dam located on the site of the proposed action, is the dam in need of repair, or upgrade?	Ele	Ø	

g. Other impacts:			
6. Impacts on Air The proposed action may include a state regulated air emission source. (See Part 1. D.2.f., D,2,h, D.2.g) If "Yes", answer questions a - f. If "No", move on to Section 7.	✓NO		YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
 a. If the proposed action requires federal or state air emission permits, the action may also emit one or more greenhouse gases at or above the following levels: i. More than 1000 tons/year of carbon dioxide (CO₂) ii. More than 3.5 tons/year of nitrous oxide (N₂O) iii. More than 1000 tons/year of carbon equivalent of perfluorocarbons (PFCs) iv. More than .045 tons/year of sulfur hexafluoride (SF₆) v. More than 1000 tons/year of carbon dioxide equivalent of hydrochloroflourocarbons (HFCs) emissions vi. 43 tons/year or more of methane 	D2g D2g D2g D2g D2g D2g	00000	
b. The proposed action may generate 10 tons/year or more of any one designated hazardous air pollutant, or 25 tons/year or more of any combination of such hazardous air pollutants.	D2g		0
c. The proposed action may require a state air registration, or may produce an emissions rate of total contaminants that may exceed 5 lbs. per hour, or may include a heat source capable of producing more than 10 million BTU's per hour.	D2f, D2g	0	
d. The proposed action may reach 50% of any of the thresholds in "a" through "c", above.	D2g		
e. The proposed action may result in the combustion or thermal treatment of more than 1 ton of refuse per hour.	D2s	0	0
f. Other impacts:		0	а
7. Impact on Plants and Animals The proposed action may result in a loss of flora or fauna. (See Part 1. E.2. n If "Yes", answer questions a - j. If "No", move on to Section 8.	nq.)	₽NO	YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may cause reduction in population or loss of individuals of any threatened or endangered species, as listed by New York State or the Federal government, that use the site, or are found on, over, or near the site.	E2o		П
b. The proposed action may result in a reduction or degradation of any habitat used by any rare, threatened or endangered species, as listed by New York State or the federal government.	E2o	0	
c. The proposed action may cause reduction in population, or loss of individuals, of any species of special concern or conservation need, as listed by New York State or the Federal government, that use the site, or are found on, over, or near the site.	E2p	0	
d. The proposed action may result in a reduction or degradation of any habitat used by any species of special concern and conservation need, as listed by New York State or the Federal government.	E2p	a	

e. The proposed action may diminish the capacity of a registered National Natural Landmark to support the biological community it was established to protect.	Е3с	0	
f. The proposed action may result in the removal of, or ground disturbance in, any portion of a designated significant natural community. Source:	E2n		
g. The proposed action may substantially interfere with nesting/breeding, foraging, or over-wintering habitat for the predominant species that occupy or use the project site.	E2m		0
h. The proposed action requires the conversion of more than 10 acres of forest, grassland or any other regionally or locally important habitat. Habitat type & information source:	E1b		
i. Proposed action (commercial, industrial or recreational projects, only) involves use of herbicides or pesticides.	D2q	0	0
j. Other impacts:		0	
8. Impact on Agricultural Resources The proposed action may impact agricultural resources. (See Part 1. E.3.a. a If "Yes", answer questions a - h. If "No", move on to Section 9.	nd b.)	✓NO	□YES
The proposed action may impact agricultural resources. (See Part 1. E.3.a. a	nd b.) Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
The proposed action may impact agricultural resources. (See Part 1. E.3.a. a	Relevant Part I	No, or small impact	Moderate to large impact may
The proposed action may impact agricultural resources. (See Part 1. E.3.a. a If "Yes", answer questions a - h. If "No", move on to Section 9. a. The proposed action may sever, cross or otherwise limit access to agricultural land (includes cropland, hayfields, pasture, vineyard, orchard, etc). c. The proposed action may result in the excavation or compaction of the soil profile of active agricultural land. d. The proposed action may irreversibly convert agricultural land to non-agricultural uses, either more than 2.5 acres if located in an Agricultural District, or more than 10 	Relevant Part I Question(s) E2c, E3b E1a, Elb	No, or small impact may occur	Moderate to large impact may occur
 The proposed action may impact agricultural resources. (See Part 1. E.3.a. a If "Yes", answer questions a - h. If "No", move on to Section 9. a. The proposed action may impact soil classified within soil group 1 through 4 of the NYS Land Classification System. b. The proposed action may sever, cross or otherwise limit access to agricultural land (includes cropland, hayfields, pasture, vineyard, orchard, etc). c. The proposed action may result in the excavation or compaction of the soil profile of active agricultural land. d. The proposed action may irreversibly convert agricultural land to non-agricultural uses, either more than 2.5 acres if located in an Agricultural District, or more than 10 acres if not within an Agricultural District. e. The proposed action may disrupt or prevent installation of an agricultural land 	Relevant Part I Question(s) E2c, E3b E1a, Elb E3b E1b, E3a	No, or small impact may occur	Moderate to large impact may occur

h. Other impacts:

9. Impact on Aesthetic Resources The land use of the proposed action are obviously different from, or are in sharp contrast to, current land use patterns between the proposed project and a scenic or aesthetic resource. (Part 1. E.1.a, E.1.b, E.3.h.) If "Yes", answer questions a - g. If "No", go to Section 10.	N) [YES
g. 27 The 1 ge to because 10.	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Proposed action may be visible from any officially designated federal, state, or local scenic or aesthetic resource.	E3h	٥	
b. The proposed action may result in the obstruction, elimination or significant screening of one or more officially designated scenic views.	E3h, C2b		0
c. The proposed action may be visible from publicly accessible vantage points:i. Seasonally (e.g., screened by summer foliage, but visible during other seasons)ii. Year round	E3h	0 0	_ _
d. The situation or activity in which viewers are engaged while viewing the proposed action is:	E3h E2q,		
Routine travel by residents, including travel to and from work ii. Recreational or tourism based activities	E1c	0	0
e. The proposed action may cause a diminishment of the public enjoyment and appreciation of the designated aesthetic resource.	E3h		
f. There are similar projects visible within the following distance of the proposed project: 0-1/2 mile ½-3 mile 3-5 mile 5+ mile	D1a, E1a, D1f, D1g		
g. Other impacts:		0	0
10. Impact on Historic and Archeological Resources The proposed action may occur in or adjacent to a historic or archaeological resource. (Part 1. E.3.e, f. and g.) If "Yes", answer questions a - e. If "No", go to Section 11.	∠ N0) [YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may occur wholly or partially within, or substantially contiguous to, any buildings, archaeological site or district which is listed on or has been nominated by the NYS Board of Historic Preservation for inclusion on the State or National Register of Historic Places.	E3e	0	
b. The proposed action may occur wholly or partially within, or substantially contiguous to, an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory.	E3f	О	
c. The proposed action may occur wholly or partially within, or substantially contiguous to, an archaeological site not included on the NY SHPO inventory. Source:	E3g		

d. Other impacts.		u	ш
If any of the above (a-d) are answered "Moderate to large impact may e. occur", continue with the following questions to help support conclusions in Part 3:			
The proposed action may result in the destruction or alteration of all or part of the site or property.	E3e, E3g, E3f	0	0
ii. The proposed action may result in the alteration of the property's setting or integrity.	E3e, E3f, E3g, E1a, E1b		
iii. The proposed action may result in the introduction of visual elements which are out of character with the site or property, or may alter its setting.	E3e, E3f, E3g, E3h, C2, C3		О
 Impact on Open Space and Recreation The proposed action may result in a loss of recreational opportunities or a reduction of an open space resource as designated in any adopted municipal open space plan. (See Part 1. C.2.c, E.1.c., E.2.q.) If "Yes", answer questions a - e. If "No", go to Section 12. 	✓ No	o 🗆	YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in an impairment of natural functions, or "ecosystem services", provided by an undeveloped area, including but not limited to stormwater storage, nutrient cycling, wildlife habitat.	D2e, E1b E2h, E2m, E2o, E2n, E2p	0	
b. The proposed action may result in the loss of a current or future recreational resource.	C2a, E1c, C2c, E2q	0	D
 The proposed action may eliminate open space or recreational resource in an area with few such resources. 	C2a, C2c E1c, E2q	0	
d. The proposed action may result in loss of an area now used informally by the community as an open space resource.	C2c, E1c		
e. Other impacts:		0	0
		h	
12. Impact on Critical Environmental Areas The proposed action may be located within or adjacent to a critical environmental area (CEA). (See Part 1. E.3.d) If "Yes", answer questions a - c. If "No", go to Section 13.	✓ No	о 🗌	YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in a reduction in the quantity of the resource or characteristic which was the basis for designation of the CEA.	E3d	0	0
b. The proposed action may result in a reduction in the quality of the resource or characteristic which was the basis for designation of the CEA.	E3d	0	0
c. Other impacts:			0

The proposed action may result in a change to existing transportation systems (See Part 1. D.2.j) If "Yes", answer questions a - f. If "No", go to Section 14.	s. VN	р <u>П</u>	YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Projected traffic increase may exceed capacity of existing road network.	D2j		
b. The proposed action may result in the construction of paved parking area for 500 or more vehicles.	D2j	0	
c. The proposed action will degrade existing transit access.	D2j	0	
d. The proposed action will degrade existing pedestrian or bicycle accommodations.	D2j	0	
e. The proposed action may alter the present pattern of movement of people or goods.	D2j	, 0	0
f. Other impacts:			
14. Impact on Energy The proposed action may cause an increase in the use of any form of energy. (See Part 1. D.2.k) If "Yes", answer questions a - e. If "No", go to Section 15.		o 🔽	YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action will require a new, or an upgrade to an existing, substation.	D2k		
b. The proposed action will require the creation or extension of an energy transmission or supply system to serve more than 50 single or two-family residences or to serve a commercial or industrial use.	D1f, D1q, D2k	Ø	
c. The proposed action may utilize more than 2,500 MWhrs per year of electricity.	D2k	Ø	
d. The proposed action may involve heating and/or cooling of more than 100,000 square feet of building area when completed.	D1g	Ø	
e. Other Impacts:			
15. Impact on Noise, Odor, and Light The proposed action may result in an increase in noise, odors, or outdoor light (See Part 1. D.2.m., n., and o.) If "Yes", answer questions a - f. If "No", go to Section 16.	iting. 🔽 NO) [YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
 a. The proposed action may produce sound above noise levels established by local regulation. 	D2m	0	
b. The proposed action may result in blasting within 1,500 feet of any residence, hospital, school, licensed day care center, or nursing home.	D2m, E1d	0	D
c. The proposed action may result in routine odors for more than one hour per day.	D2o		В

d. The proposed action may result in light shining onto adjoining properties.	D2n	0	0
e. The proposed action may result in lighting creating sky-glow brighter than existing area conditions.	D2n, E1a	0	п
f. Other impacts:		0	

16. Impact on Human Health The proposed action may have an impact on human health from exposure to new or existing sources of contaminants. (See Part 1.D.2.q., E.1. d. f. g. an If "Yes", answer questions a - m. If "No", go to Section 17.	d h.)	р <u></u>	YES
	Relevant Part I Question(s)	No,or small impact may cccur	Moderate to large impact may occur
a. The proposed action is located within 1500 feet of a school, hospital, licensed day care center, group home, nursing home or retirement community.	E1d		
b. The site of the proposed action is currently undergoing remediation.	Elg, Elh		п
c. There is a completed emergency spill remediation, or a completed environmental site remediation on, or adjacent to, the site of the proposed action.	Elg, Elh		п
d. The site of the action is subject to an institutional control limiting the use of the property (e.g., easement or deed restriction).	Elg, Elh		О
e. The proposed action may affect institutional control measures that were put in place to ensure that the site remains protective of the environment and human health.	Elg, Elh		
f. The proposed action has adequate control measures in place to ensure that future generation, treatment and/or disposal of hazardous wastes will be protective of the environment and human health.	D2t		
g. The proposed action involves construction or modification of a solid waste management facility.	D2q, E1f	0	О
h. The proposed action may result in the unearthing of solid or hazardous waste.	D2q, E1f		
 The proposed action may result in an increase in the rate of disposal, or processing, of solid waste. 	D2r, D2s	0	П
j. The proposed action may result in excavation or other disturbance within 2000 feet of a site used for the disposal of solid or hazardous waste.	Elf, Elg Elh	0	П
k. The proposed action may result in the migration of explosive gases from a landfill site to adjacent off site structures.	Elf, Elg	0	О
 The proposed action may result in the release of contaminated leachate from the project site. 	D2s, E1f, D2r		
m. Other impacts:			

17. Consistency with Community Plans The proposed action is not consistent with adopted land use plans. (See Part 1. C.1, C.2. and C.3.)	NO	Y	YE S		
If "Yes", answer questions a - h. If "No", go to Section 18.					
J 7 7 8 7 8 7 8 7 8 7 8 7 8 7 8 7 8 7 8	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur		
a. The proposed action's land use components may be different from, or in sharp contrast to, current surrounding land use pattern(s).	C2, C3, D1a E1a, E1b		п		
b. The proposed action will cause the permanent population of the city, town or village in which the project is located to grow by more than 5%.	C2				
c. The proposed action is inconsistent with local land use plans or zoning regulations.	C2, C2, C3				
d. The proposed action is inconsistent with any County plans, or other regional land use plans.	C2, C2	0	0		
e. The proposed action may cause a change in the density of development that is not supported by existing infrastructure or is distant from existing infrastructure.	C3, D1c, D1d, D1f, D1d, Elb		п		
f. The proposed action is located in an area characterized by low density development that will require new or expanded public infrastructure.	C4, D2c, D2d D2j				
g. The proposed action may induce secondary development impacts (e.g., residential or commercial development not included in the proposed action)	C2a		0

Full Environmental Assessment Form Part 3 - Evaluation of the Magnitude and Importance of Project Impacts and Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact
 occurring, number of people affected by the impact and any additional environmental consequences if the impact were to
 occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where
 there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse
 environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

Impact Description:

Impact on Surface Water: The proposed action may involve construction within or adjoining a freshwater or tidal wetland, or in the bed or banks of any other water body (See EAF part 2, 3D.)

This project involves the replacement of the Village's existing sewage collection system due to age and deterioration of the pipes. According to flow data from the Village Sewage Treatment Plant, infiltration of groundwater into the sewage collection system is occurring. The existing collection system will be replaced with a watertight system. It is anticipated that flooding will continue to occur in localized areas within the Village where a stormwater collection system does not exist. As such, this project involves a hydrologic analysis followed by design and installation of a new stormwater collection system for the Village. It is anticipated that an outfall pipe will be installed conveying the stormwater into the Great South Bay. As stormwater already is eventually discharged into the Great South Bay through an existing outfall, the concern for impact involves the replacement of the outfall pipe in proximity to the Great South Bay. Specific actions will be taken to minimize the impact to this waterbody during construction of the outfall.

Mitigation Measures to be Incorporated into the Project:

The Contractor shall be required to prepare and implement an Environmental Protection Plan, documenting the contractor's means and methods of performing the work in conformity with all applicable laws and permits, taking into account, protection of the Great South Bay.

All work shall be performed in accordance with New York State Department of Environmental Conservation ("NYSDEC") Tidal Wetland permit to be obtained. Subsequent to permit issuance, the construction manager will monitor the work done by the Contractor to ensure consistent compliance.

All work shall be performed in accordance with New York State Department of Environmental Conservation ("NYSDEC") State Pollutant Discharge Elimination System ("SPDES") permit to be obtained. Subsequent to permit issuance, the construction manager will monitor the work done by the Contractor to ensure consistent compliance.

All work shall be performed in accordance with a Stormwater Pollution Prevention Plan ("SWPPP") that is compliant with Village and State requirements. The SWPPP will mandate certain Best Management Practices ("BMPs") and measures intended to prevent any project related sediment, hazardous chemicals, spills, erosion, or other pollutants from infiltrating into the ground or being discharged to surface waters.

In order to protect the Great South Bay, the project contract documents will provide for any applicable temporary or permanent run-off, erosion, and sediment controls including silt fences, erosion fabric, straw bale, turbidity curtain and vegetation.

Significance of Impact with Mitigation Measures: Not significant.

Determination of Significance - Type 1 and Unlisted Actions							
SEQR Status:	Type 1	✓ Unlisted					
Identify portions of I	EAF completed for this	Project: 🔽 Part 1	Part 2	Part 3			

Upon review of the information recorded on this EAF, as noted, plus this additional support information
and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the the Village of Ocean Beach agency that:
A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.
B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:
There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.d).
C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.
Name of Action: Village of Ocean Beach Sewage Collection System Replacement
Name of Lead Agency: Village of Ocean Beach
Name of Responsible Officer in Lead Agency: Steven Brautigam
Title of Responsible Officer: Clerk/Treasurer tem Brunningam
Signature of Responsible Officer in Lead Agency: Date: 3/10/2021
Signature of Preparer (if different from Responsible Officer) Date:
For Further Information:
Contact Person: Steven Brautigam
Address: Inc. Village of Ocean Beach, Bay & Cottage Walks, P.O. Box 457, Ocean Beach, NY 11770
Telephone Number: (631) 583-5940
E-mail: sbrautigam@villageofoceanbeach.org
For Type 1 Actions and Conditioned Negative Declarations, a copy of this Notice is sent to:
